

## I DO NOT WRITE LOVE SONGS

I do not write love songs you know that anyway  
If I felt a thing for you I could never say  
Its not my fault that cat has got my tongue  
And I do not write love songs that way  
Its not what you wanted but please don't go away  
Despite the content of this song I wanted you to stay  
Its not my fault I've always been this way  
I warned you I do not write love songs that way

I can take you to the stars, I can take you to the stars  
Just stay Just stay, I can take you to the stars

I do not write love songs you know that's not my style  
But if you wanna stick around I can make you smile  
I can sing you songs we can still make hay  
But I do not write love songs that way

I can take you to the stars, I can take you to the stars  
Just stay, Just stay, I can take you to the stars

Afraid of the light that you would bring  
Run from the love that you could give  
Break off the chains that hold me down  
Hazed by the fear that locks me in

Afraid of the light that you could bring  
Run from the love that you would give  
Break off the chains that hold me down  
Hazed by the fear that locks me in
