

One two Three Urgh!

Want you to join

Army of robots

Want you to join

Army of robots

break your program

Smell the coffee

Break your program

Want you to rebel

They don't want you to know

It's just an illusion

Throw it in their face x 6

Want you to join

Army of robots

Want you to join

Army of robots

They don't want you to know

Layers of confusion

Got a better plan

Take all your frustrations

Put them in a can

Stick it to the man

And throw it in their face x 6

Urgh!

Programmed to live, programmed to die, to clean your shit in order to survive, programmed to fight, terrors in the night, programmed to be a serve to the minority rich, to never complain like a whiney bitch, to swallow the pain, to be always ashamed, programmed to fear the embodiment of change.

Work play die repeat, work play die repeat, get a job, get a life, get a funeral plan, work play die repeat, work play die repeat, work play die repeat.

Throw it in their face! X 6

Want you to join

Army of robots

Want you to join

Army of robots

break your program

Smell the coffee

Break your program

Want you to rebel

They don't want you to know

It's just an illusion

Throw it in their face! X 6
